

Dear Parents and Families,

We hope the school year is off to a great start. Revolution Foods is honored to partner with your school to provide fresh, healthy, affordable, and delicious meals ensuring students are ready to learn. As you may know, for the last 16 years Revolution Foods has been committed to our mission of “healthy meals for all” serving over 7,000 K-12 schools and 500 million meals across the country. As the only Public Benefit Corporation (PBC) in the school nutrition market, we are a social impact company that wakes up every day focused on creating a quality experience for students.

We want your children to simply enjoy our chef-crafted, kid-tested meals. You can be assured that behind the scenes, we are focused on using the highest quality ingredients. When possible, meals include cage-free eggs, whole-muscle meats, rBST-free dairy, and fresh seasonal fruits and vegetables. Our meals comply with or exceed federal nutrition requirements and now with the passage of the California Universal Meals legislation, all students have access to a free breakfast and lunch every day creating equitable access to quality food. That is great news for students!

We are thrilled to see students eating together once again and enjoying some of their favorite menu items. As you have probably noticed while walking the aisles of your grocery store, rising food and fuel costs continue to create \*supply chain challenges. This often means that we must make menu substitutions. While we attempt to minimize the impact on every school, we appreciate your flexibility and understanding when these changes do occur!

\*To read more about the supply chain challenges, visit:

- School Nutrition Association’s [Supply Chain Issues and School Meals – What Parents Need to Know Video](#) *“Ongoing disruptions throughout the supply chain coupled with the rising costs of record inflation, persistent labor shortages, insufficient regulatory relief, and instability abroad have created epic challenges never faced in the 76-year history of the National School Lunch Program.”*
- Bloomberg’s [Chronic Food Shortages from Lettuce to Sriracha and the Rise of Chicken](#)
- Earth.org’s [How Wheat Shortage is Sparking a Global Food Crisis](#) *“Skyrocketing market prices for wheat not only affects grain-based products but also animal feed.”*

We remain honored to serve you and look forward to a great school year ahead filled with delicious meals.

With gratitude,
